

سه شنبه ۲۹ مهر ماه ۱۴۰۴ - برنامه زمانبندی سخنرانی ها

No.	Code	Presenter	Title	Time
1	G-1158	Maral Choopani	An inflammatory network in active brucellosis: Integrating IL-32, TNF- α , CXCL2, CXCL8, and TLR-4	13:30 - 13:40
2	G-1157	Hadis Jafarian	Spectrum of Fungal Pathogens Isolated from Hematologic Malignancy Patients Suspected of Fungal Infection: A retrospective Study	13:40 - 13:50
3	G-1128	Nahid Heydari	Prevalence and Co-Infection Patterns of Human Papillomavirus and Epstein-Barr Virus in Genital Wart Patients and normal population	13:50 - 14:00
4	G-1124	Seyedeh Azra Shamsdin	Association of Helicobacter pylori Infection with Iron Deficiency and Inflammatory Biomarkers in Children	14:00 - 14:10
5	G-1061	Javad Javidnia	Environmental Distribution and Molecular Identification of Pathogenic Scedosporium Species in Northern Iran	14:10 - 14:20
6	G-1071	Jafar Soltani	Adult vaccination: Current recommendations and prospects	14:20 - 14:30
7	G-1007	Soniz Javadi	Pulmonary Candida Colonization and Infection in Renal Patients: A Molecular and Microscopic Characterization	14:30 - 14:40
8	G-1013	Parissa Farnia	Whole Genome Sequencing-Based Detection of Mutations in Mycobacterium simiae Isolates from Iran	14:40 - 14:50
9	G-1018	Mahnaz Yadollahi	Comorbidity and Antimicrobial Resistance as Determinants of Surgical Site and Bloodstream Infections and Their Impact on hospitalization: A Retrospective Hospital-Based Cohort Analysis	14:50 - 15:00

10	G-1024	Sepideh Elyasi	Evaluation of the rational prescription of colistin in the medical departments of Imam Reza Mashhad Hospital, Mashhad, Iran	15:00 - 15:10
11	G-1028	Ali Najafizadeh	Intranasal administration of the Mentha aquatica extract protects mice against the acute pneumonia model of Pseudomonas aeruginosa infection	15:10 - 15:20
12	G-1035	Gholamhassan Shahbazi	Therapeutic Application of a Targeted Phage Against Drug-Resistant Pseudomonas aeruginosa in Burn Wound Models	15:20 - 15:30
13	G-1059	seyed hesammedin hoseini	Ethidium bromide-degrading bacteria in horse feces	15:30 - 15:40
14	G-1138	Mohammad amin Ghatei	Environmental factors influencing Fasciola hepatica infection in livestock in an endemic focus of Southwestern Iran	15:40 - 15:50
15	G-1084	Bibi Raziieh Hosseini Farash	Sero-positivity of Latent Infections in HIV-Infected Patients in Northeastern Iran (2013-2022)	15:50 - 16:00
16	G-1112	Negar Nayerain Jazi	Seroprevalence of Anti-HBs Antibodies among Female Sex Workers in Fars province, Iran, 2023-2024	16:00 - 16:10
17	G-1135	Farnaz sadat Javanmardi	Evaluation of the implementation of the antibiotic stewardship program for the use of antibiotics in children suspected of meningitis in the children's emergency department of Namazi Hospital during a five-month period	16:10 - 16:20
18	G-1143	Zahra khabazan	Evaluation of the efficacy of an attenuated Toxoplasma gondii vaccine in inducing an immune response and protecting against lethal challenge in a mouse model	16:20 - 16:30
19	G-1115	Khadijeh Ahmadi	Decoding the Omicron Lineage in Southern Iran: Functional Impacts of RBD and ORF9b Mutations	16:30 - 16:40
20	G-1121	Robab Ebrahimi Barough	Ultrastructural Adaptations of Fluconazole-Resistant Candida auris Clade V Exposed to Fluconazole	16:40 - 16:50

21	G-1153	Zahra Jafarpour	16-Year Trends of Antimicrobial Resistance in Staphylococcus aureus Bloodstream Isolates: A Linear Regression Analysis from a Tertiary Teaching Hospital in Southern Iran (2008–2024)	16:50 - 17:00
22	G-1125	Nastaran Khodadad	The CRISPR–Cas9 system for genome editing of the ASS1 gene in human cells to predict its effect on HSV-1 replication	17:00 - 17:10
23	G-1085	Bibi Razieh	Anti-Leishmanial Effects of Tobacco Extract on Leishmania infantum In Vitro/Ex Vivo Abstract	17:10 - 17:20
24	G-1113	Negar Nayerain Jazi	Systems-Biology Approaches to Identify Potential Gene Targets and Pathways in Hepatocellular Carcinoma through Microbiota–Metabolite Interactions	17:20 - 17:30

ANTIBIOTICS
Use Wisely,
Not Widely
